SCREWDRIVER 3.6V LI-ION - POWX0030LI

Powerplus POWX0030LI is a compact and lightweight cordless screwdriver with Li-Ion battery (1300mAh). It's an ideal tool for all small DIY jobs around the house, such as assembling furniture. The handle is rotatable in 2 positions. Thanks to an integrated LED light, your work piece is always well lit. Additionally a LED light in the handle functions as torch. The battery capacity LED indicator advises when to recharge your battery. Recharging the battery takes 3 to 5 hours. This screwdriver comes in a handy plastic case with 54 bits, a magnetic bit holder and charger. Warranted for 3 years.
